## Projects

**The core curriculum of 42** October 2023 - Present

C/C++ and sysadmin projects

During my ongoing studies at 19, I have been completing the projects required by the core curriculum, the programming projects are in C then C++ and range from the implementation of printf to a web server, including multithreaded programs, use of a graphical library and the implementation of a shell from scratch.

The repositories are available on my github.
